- Non-slip, easy grip design
- Latex and BPA free
- Reusable
- Cardboard box
- Small, compact and easy to carry

Interdental Brushes, ISO Size No. 1-6
Single or Assorted Sizes
6 pcs/box

ez interdental brushes

- 1 We have designed the shape of our handle to be small and practical in size, so that it uses up to 65% less plastic than other leading brands.
- 2 Instead of using new plastic, we use 100% recycled plastic for the brush handle and 50% recycled plastic for the protective cap. This recycled plastic is made using waste materials left over from our other manufacturing processes.
- 3 Unlike other brands who package interdental brushes in unnecessarily large plastic boxes and bags, we use a cardboard box which is 100% plastic free. This means the box is easily recyclable.

Greenline micro applicators *mini*

1 We designed the handle to be a smaller, more practical size that reduces the amount of plastic used by 50% in comparison to our standard micro applicators.

2 Instead of new plastic, we used 100% recycled plastic. This recycled plastic is made using waste materials from our other manufacturing processes.

3 No more plastic tube dispenser that can use up to a third of the amount of plastic as the actual product - just a 100% recyclable box.

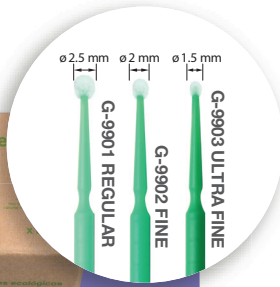

Greenline micro applicators *tips*

1 By using a micro applicator tip with a reusable handle, you can reduce the amount of plastic that you would normally use by 80% when compared to a standard micro applicator.

2 Using an autoclavable handle saves plastic. Clean it, autoclave it and re-use it. Simple and effective.

3 Our micro applicator tips are packaged in a 100% recyclable cardboard box. Recycling can prevent pollution by reducing the need to collect new raw materials.

4 Instead of using new plastic for the micro applicator tips, we use 100% recycled plastic. The recycled plastic is made using waste materials from our other manufacturing processes.

G-9901 REGULAR

G-9902 FINE

G-9903 ULTRA FINE

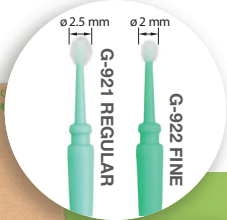

- Bends into any angle for the placement of small controlled amounts of material in limited access areas
- Economical – saving up to 80% by the reduction of excess materials used

G-922 Fine (dia. 2 mm) Medium Green 100 pcs/box

Autoclavable Micro Applicator Tip Handle

7502W White

7502T Transparent

Greenline air-water syringe tips

Reusable products are a great idea. Unfortunately, trying to clean the inside of a reusable metal air-water syringe tip is just not possible and if you can't clean it, you can't guarantee the effectiveness of its sterilisation. This means that using a disposable plastic air-water syringe tip is the only way to guarantee avoiding cross contamination.

1 Our Greenline air-water syringe tips are made from 100% recycled plastic, using waste materials left over from our other manufacturing processes.

2 The Greenline air-water syringe tips are packaged in 100% recyclable cardboard boxes, instead of large plastic bags, helping to reduce the amount of plastic packaging in your surgery.

- Directly interchangeable with American type syringe tips (long), or European syringes which have been converted to use American type syringe tips (short)
- Made from 100% recycled plastic
- No sharp edges for patient comfort
- Unique quad air core design to ensure dry air
- Cardboard packaging which is easily recyclable

Greenline Air-water Syringe Tips
G-018 (American Type) 200 pcs/box
G-028 (European Type) 200 pcs/box

Greenline bamboo cups

Looking to cut down on plastic use? Switching to bamboo cups is a simple and easy change that can have an impact on reducing plastic waste in your surgery. Here are some reasons to make the switch to using bamboo:

1 Bamboo is the world's quickest growing plant and provides a sustainable source of material. When bamboo is cut down to make paper, it is able to quickly recover to be harvested again.

2 Bamboo absorbs a large amount of CO₂ emissions as it grows, which helps to offset human carbon emissions.

3 Our Greenline outer carton is 100% recyclable.

- Leakproof construction, non-slip design
- Dispenses easily from cup dispenser due to their rolled lip
- Conveniently designed 170ml (6oz) size

Bamboo Cups 170 ml (6oz), 1000 pcs/box
6800BB Blank
6800BH Healthy Teeth (4 assorted designs)
