Please summarise your project in some sentences:

To give opportunities to a group of Somali women to speak Swedish and at the same time learn how to use a sawing machine and try other handcraft technics.

Why did your club / union choose to do this project?

The Somalie women from our former project Naturkraft (SIE-11730) wanted to learn more about handcraft technics and how to use a sawing machine and we thought the it was a perfect step forward for this group. We continue the training in the Swedish language and add the wanted handcraft training.

How did you implement this project? What concrete actions did you take to tackle the issue you mentioned in the previous question?

We are cooperating with Studieförbundet and this organisation gives us the possibility to use sawing machines and also letting us use rooms and other facilities during our project.
