

Print your food cards with ease.

Tag Your Price™ is a complete, simple powerful food card printing app.

Manage all your food products, all your departments thanks to a database adapted to your needs.

Print your cards in a simple mouse click.

Editing your prices tags is so simple!

Be guided by the software assistant throughout the process of creating your food cards.

Tag Your Price

Professional price tag software for everyone

→ Manage your food products as simply as possible

Tag Your Price™ allows you to easily manage all of your food products. Thanks to its intuitive interface and its various assistants, you will be guided in all your steps. When the food becomes elementary.

→ Enjoy a complete, simple and powerful solution

Tag Your Price™ offers all the options you'd expect from a price tag printing software, and more: food badge printing and customization, storing information in a secure database, organizing pricing and information current promotions, management of designations and origins, application of allergens, etc.

→ Save all of your product's information in a standard database

All departments, products, prices, promotions, names, origins and allergens are stored in a Microsoft Access™ database.

This database can be shared between computers in a networked environment, allowing one or many persons to work on it at the same time.

→ Control your input and your template

To avoid display errors, or even control the template before printing, Tag your Price™ allows you to immediately preview the current card.

→ Print your card in seconds

You will have a wide choice of food templates, but you can fully customize the model that we put at your disposal, thanks to the powerful badge creation tool eMedia CS2™, included with the application.

The printing of your card is done instantly.

→ Complete allergen management compliant with European regulations

Directive 1169/2011 of the European Union requires to inform the consumer about the presence of allergens in foodstuffs.

Displaying allergens has never been easier. The pictograms are already integrated into the software. You just have to select the allergens that applies in each product.

They will be printed correctly on your card. You will follow the regulation and your customers will be satisfied.

→ Manage multiple departments

Tag your Price™ offers the possibility to manage several departments simultaneously: butcher, delicatessen, cheese factory, etc.

You can manage your shelves from one workstation and even from several workstations at the same time!

The changes made by each user will be notified in the database, and you will be able to print the modified cards with a single mouse click.

User management provided by Tag Your Price™ allows the administrator to give full, partial or no access to users, department by department.
